Pramod Adhikari Khatri

Content Writer

👤 Profile

Results-oriented and creative , content writer and AI prompt engineer who enjoys bringing ideas to life as engaging digital content. I've written engaging, SEO-optimized content that increased clicks and conversions and I've created precise AI prompts that generated beautiful images and clever automation.

I'm inspired by creativity and clarity, and I enjoy distilling difficult concepts into engaging writing.Experienced in AI tools, content strategy, Content Writing, storytelling, and prompt design.

💼 Employment History

Graphics Designer/AI Prompt Engineer at Gamenic Nalamiz Tech., liwali-8,Bhaktapur

October 2024 — April 2025

- As a content writer collaborating closely with design and development teams, I contributed to the creation of compelling digital assets across marketing, mobile, and web platforms using tools like Adobe Photoshop, Illustrator, and Figma. I specialized in crafting precise language prompts for AI tool such as MidJourney , enabling the generation of high-quality, brand-aligned visuals. By experimenting with emerging AI technologies and refining prompt strategies, I helped streamline creative workflows while ensuring consistent, visually engaging storytelling.

Content Writer at Falano College, Chabahil

August 2021 — Present

- As a content writer, I focused on creating informative and engaging content about +2 level education in Nepal, aiming to guide prospective students in choosing the right streams and courses. I wrote clear, SEO-optimized articles, compiled and solved past exam papers, and ensured all website information was accurate, consistent, and user-friendly. My work enhanced the site's visibility, readability, and overall user experience.

🎓 Education

Bachelor, St. Lawrence College, Chabahil

March 2021 — June 2025

I am currently studying in the 8th semester of the BSc.CSIT program at Tribhuvan University(TU) . Throughout the course, I have gained knowledge and practical experience in programming, database management, software engineering, networking, and web development while balancing a Professional career in content writing.
